

HOW TO CREATE YOUR TIDAL ARTIST HOME ACCOUNT

1) CREATE ACCOUNT

If you don't already have an account, you will need to create one. You will enter an email address and create a password before being able to move forward.

2) CLAIM ARTIST

Next, you will select an artist. If there are multiple profiles and you select the wrong one, you can come back to this step.

3) SELECT YOUR MUSIC

Select a title where you're the primary artist. If you are not a primary artist on any projects, you will be unable to create a TIDAL Artist Home account.

4) VERIFY

Verify your profile via Distributor, social media, or manual verification.
